***Our vision for a better future***

*IPL is committed to reducing the environmental impact of its activities, manufacturing processes, products and services.*

32 US gal / 120 L, 64 US gal / 240 L and 95 US gal / 360 L

#### KEY FEATURES

- Injection molded cart for strength and durability.
- The IPL injection mold process produces exacting design and yields consistent thickness, precision and cost effectiveness.
- UV stabilized against long term effects of the sun.

#### Wheels

- Solid steel axle, yellow-zinc plated against corrosion.
- Wheels snap on without tools.

#### Body

- Includes 4 perforated aeration vents in the body of the cart (2 per side)
- Sturdy hinged, rust resistant, raised floor grate to enhance air flow within the cart, facilitating evaporation of moisture to reduce material weight and minimize odor. Easy to clean out.
- Unibody design with no bolts or holes that could potentially leak
- Cart designed for maximum wind stability
- Easy to handle.

#### Lid

- Air release vent with rainshield.
- Advanced lid hinge design offers a tight seal that keeps pests and weather out and trash in.
- Safe lid: can support the weight of a child.
- Multilingual user instructions on the lid.

#### Tracking

- RFID tag and bar code enabled.

#### Decoration

- Multicolor hot stamping, branded logos, serial numbers.
- Sequential serial numbers, bar coding.

#### Warranty

- 10-year limited warranty.
- Can take the worst weather and the roughest handling; has a 20-year life expectancy.
- Longest lasting cart in North America.
- Meets all American National Standards Institute requirements for safety and lifter system compatibility. (ANSI Z245.30 and Z245.60)
