

Rainwater amphora

The elegant alternative – overground

Rainwater amphora

- | Stylish and attractive rainwater collector for the garden
- | High storage volume with small footprint
- | Simple fitting of the drain tap (accessory) using moulded screw neck
- | Fixing eyelets for storm protection included in delivery
- | Inlet seal DN 50 included
- | No drill necessary - inlet seal and 2 screw necks included as standard
- | Empty the tank when there is a danger of frost!

You get optimal convenience in combination with a downpipe filter

Simple assembly using moulded screw necks
